OUR STORY

1 About Us

WWW.MANDMSERVICESGROUP.COM.AU

Our Story

For 25 years, M&M Spray Painting has specialised in facade and surface restoration, delivering high-performance coating solutions that revive, protect, and enhance building facades across Sydney and Melbourne. Our work reflects deep technical expertise in surface preparation, corrosion treatment, and premium coating systems – restoring the integrity and appearance of some of Australia's most recognisable structures.

Expansion

As our capabilities grew, we identified gaps in facade and surface restoration delivery – particularly around coordination, sequencing, and multi-trade management. To address these challenges, we expanded our team with skilled tradespeople and project managers, evolving into M&M Services Group, a fully integrated facade and surface-restoration provider.

Current

Today, we offer a streamlined suite of facade and surface-restoration services that elevate project quality and efficiency. By managing multiple scopes under one coordinated team, we remove the complexity of dealing with numerous trades and ensure a smooth, consistent, and high-quality outcome from initial preparation through to final handover.

CORE VALUES

That contribute to successful projects

MISSION

We are committed to providing an exceptional customer experience. We are constantly refining our services through collaboration and continuous learning, involving engineers, managers, and tradespeople to achieve the finest outcome.

VISION

Our present and future aspirations are centered on expanding 'M&M Services Group' across the continent, providing a comprehensive range of services for the installation and finishing of building, home, and hotel elements.

Facade Repair

01 | FACADE RECTIFICATIONS

M&M Services Group is renowned for restoring a facade that has been damaged via transportation, installation and damages caused by others. Through time, experience and knowledge our facade restorations procedures have developed to ensure industry and client standards are met efficiently and to the highest standard.

02 | SERVICE BENEFITS

Benefits One

1

We are equipped to perform extensive repairs, helping salvage your product. Additionally, we offer timestamped photos that are taken and documented to support back charges when damaged by others.

Benefits Two

2

Our restoration kit allows for enclosed area painting of polyurethanes and acrylics giving us the chance to ensure better quality works over spray can touch ups.

Benefits Three

3

Ability to increase labour at any given point in order to ensure tasks set are achieved in time.

Facade Commissioning

We possess extensive expertise in the commissioning of the various components and elements that constitute your facade. Our comprehensive commissioning process is designed to ensure the complete integrity and functionality of your product. This includes several critical steps:

1. Re-engagement of Operational Components:

During delivery and installation, some facade components may be rendered static. We carefully re-engage these components to restore their operational status, ensuring they function as intended.

2. Replacement of Damaged or Faulty Components:

We conduct thorough inspections to identify any damaged or defective facade components. Our team promptly replaces these items to maintain the aesthetic and structural integrity of your facade.

3. Installation of Additional Components:

Should you require any supplementary facade elements after the initial installation, we are equipped to seamlessly integrate these additional components into your existing structure.

At M&M, our unwavering commitment to quality assurance ensures that every step of the commissioning process is carried out to the highest standards, providing you with a reliable and visually appealing facade.

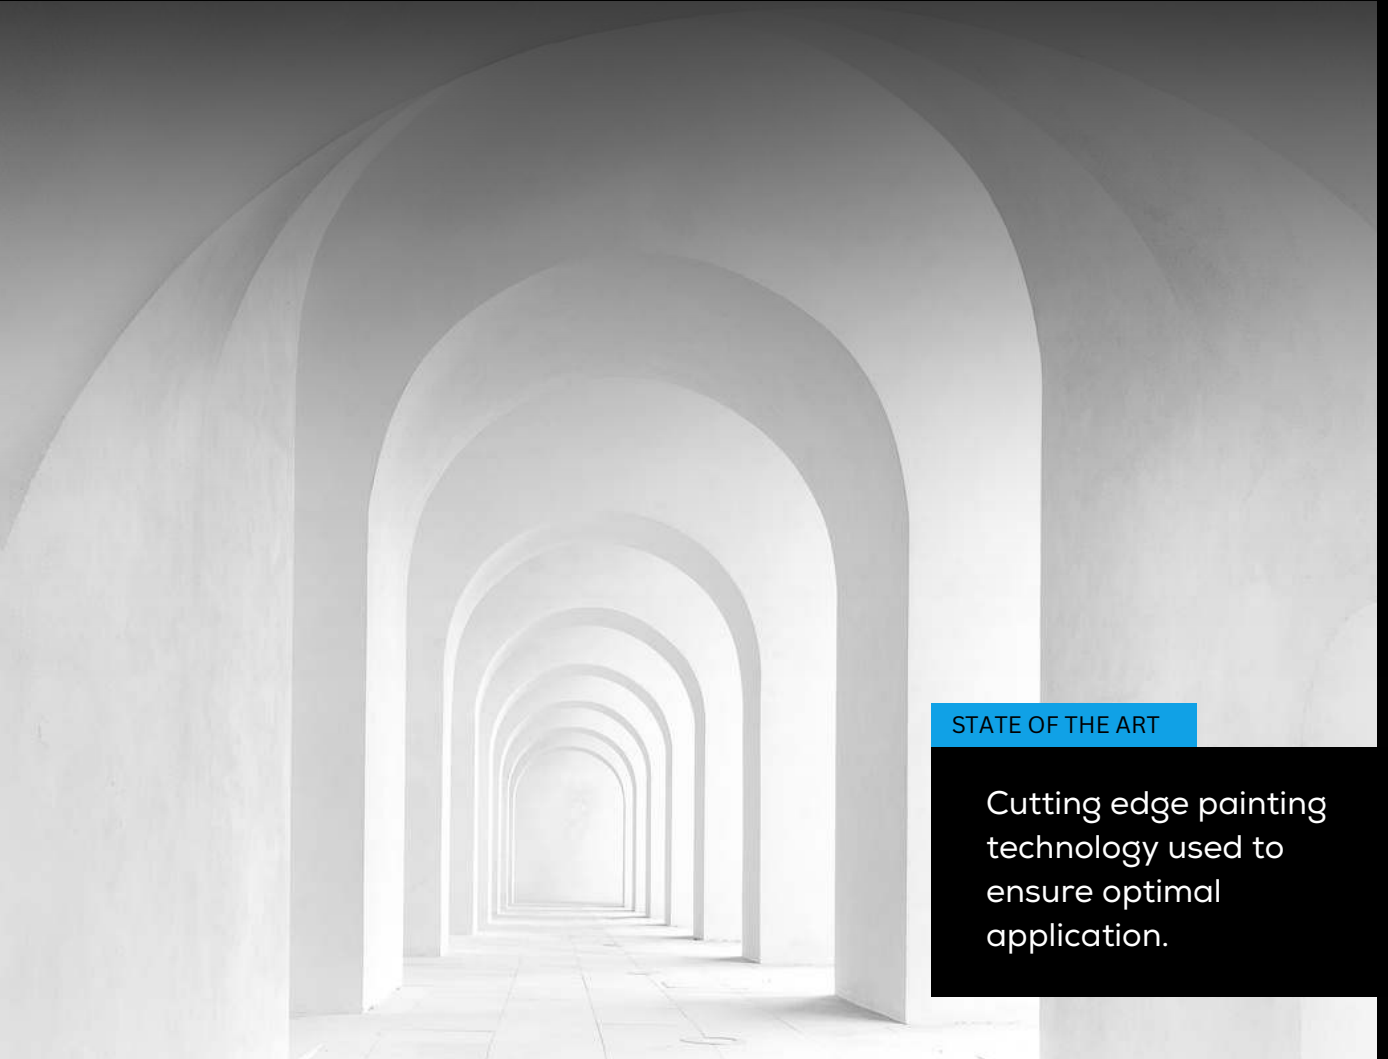

STATE OF THE ART

Cutting edge technology coatings and instruments used to ensure optimal protective systems.

Structural Steel

Involved in several structural rectifications across Sydney, M&M has helped to coat durable and aesthetically pleasing finished steel works.

WE ARE FOCUSED TO ENSURE COATINGS ARE APPLIED TO THE ENGINEERING SPECIFICATION AND AUSTRALIAN STANDARDS.

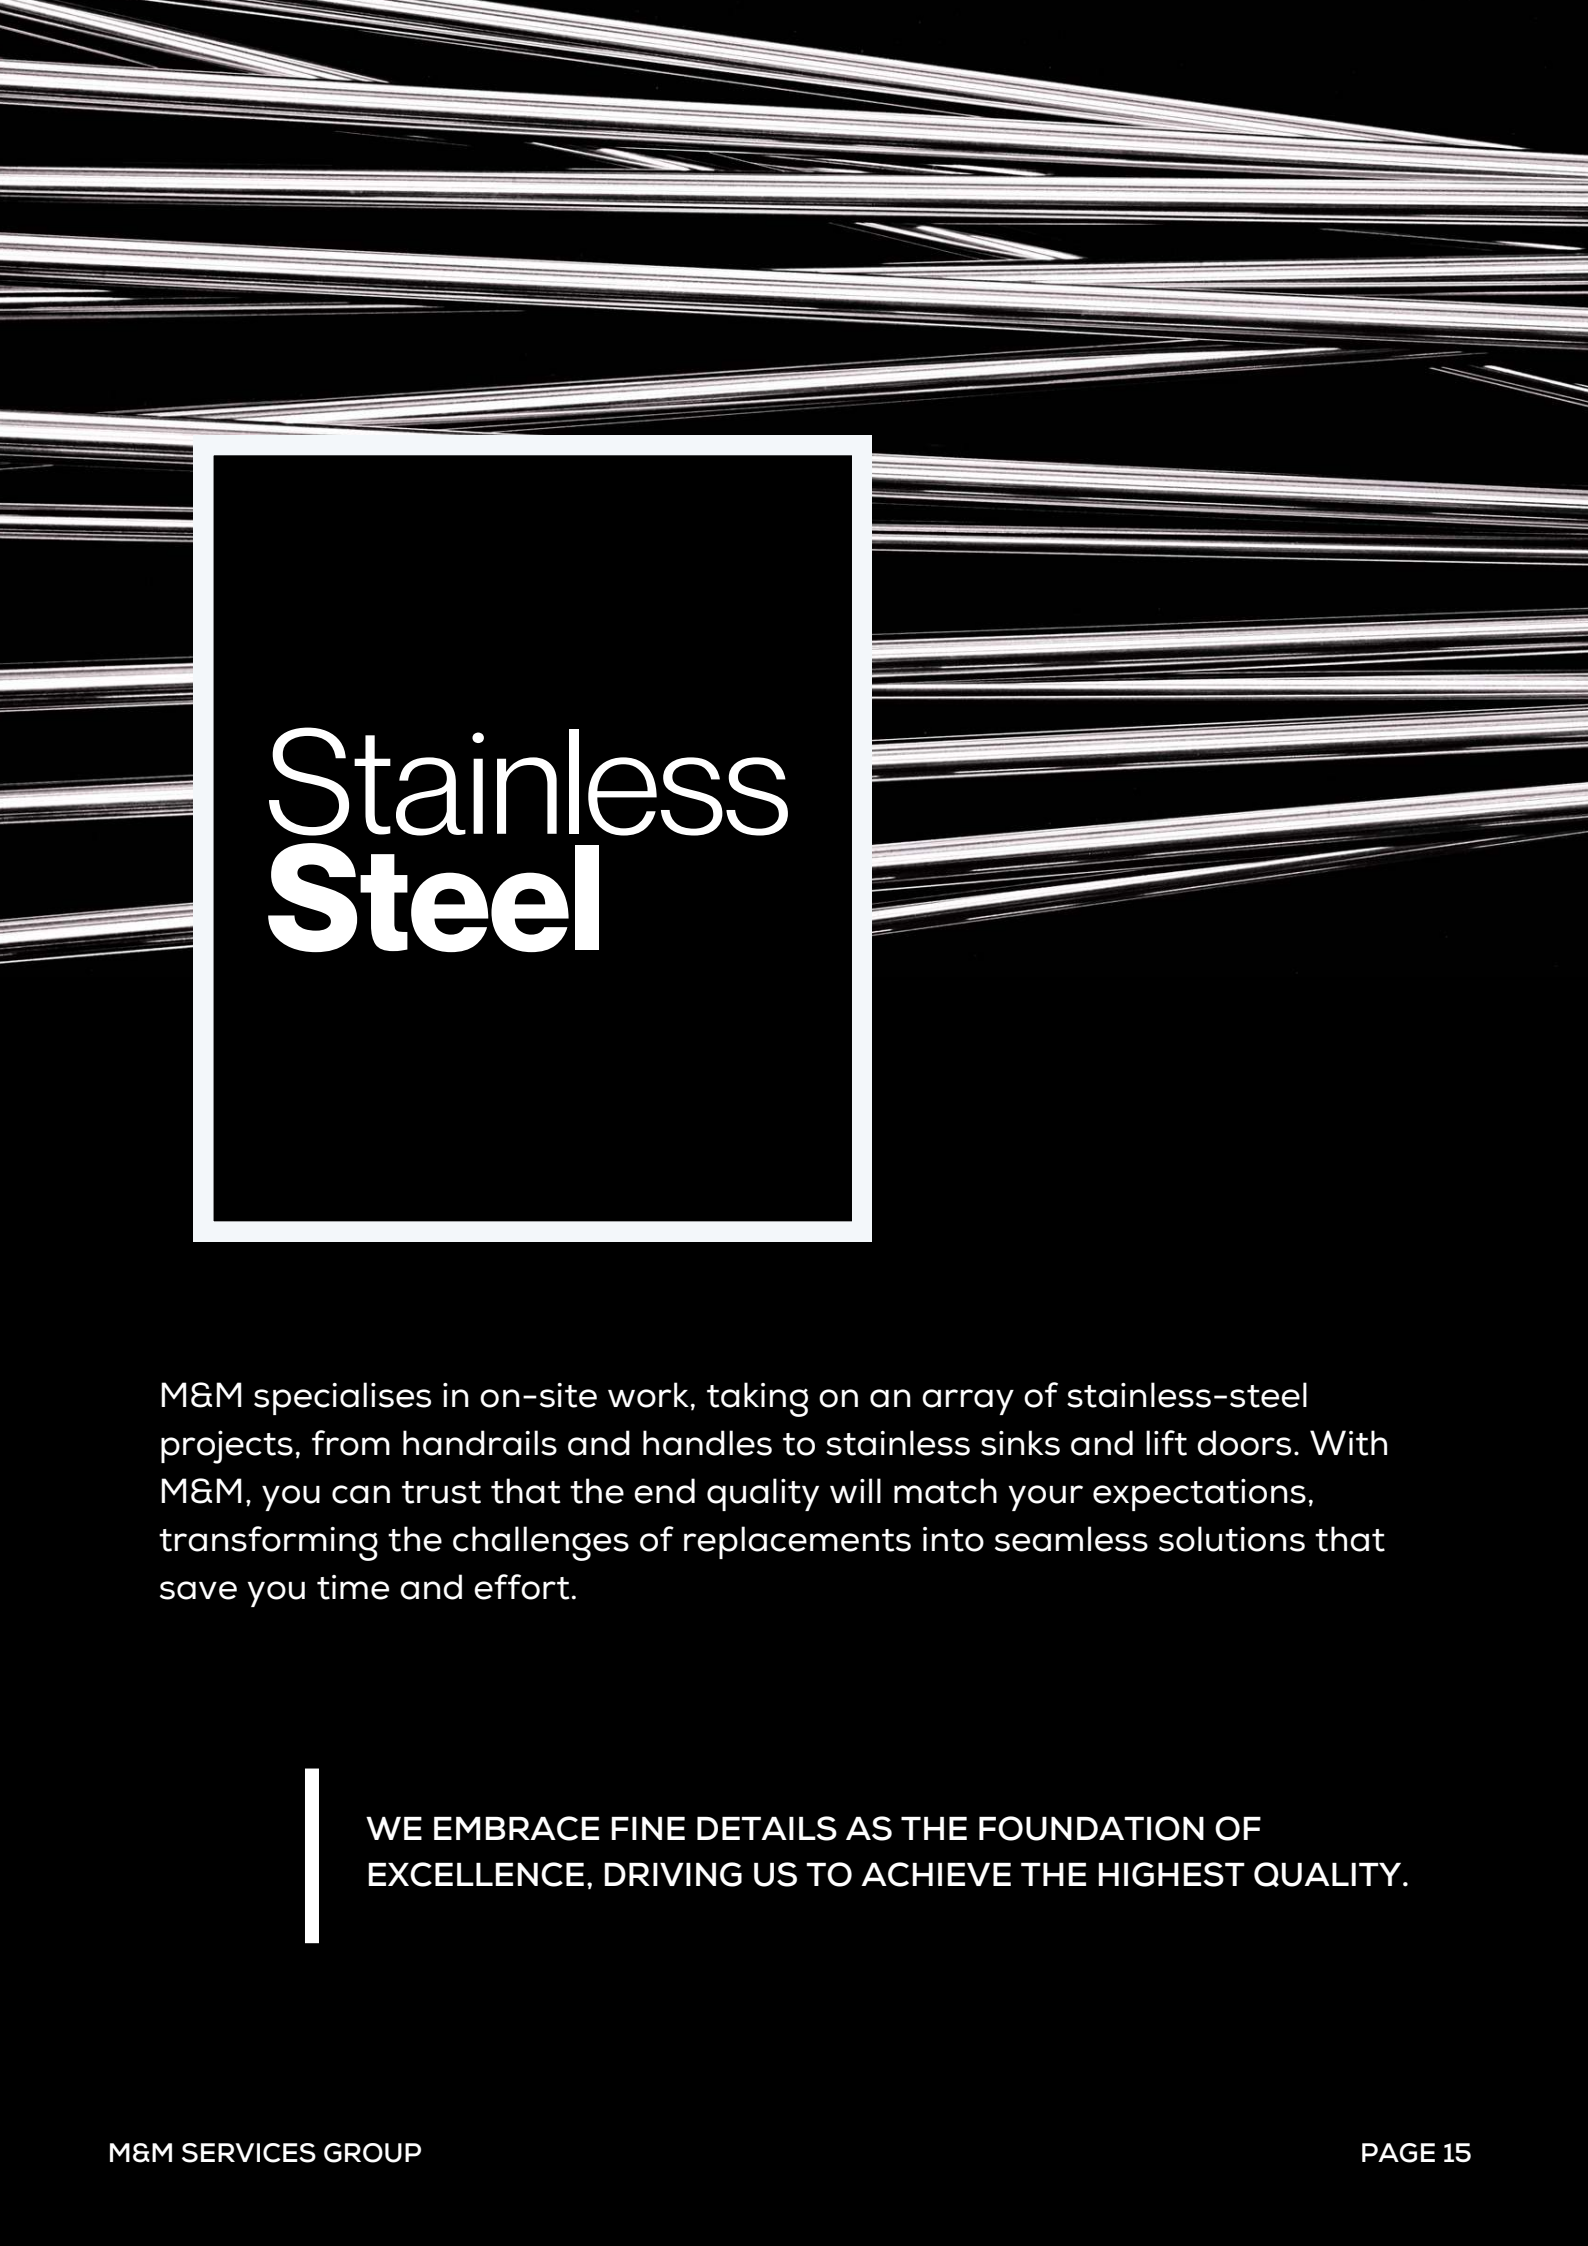

STATE OF THE ART

Cutting edge painting technology used to ensure optimal application.

Architectural Painting

We focus on offering a complete range of painting services designed for both interior and exterior applications. Our expertise allows us to work with a diverse array of surfaces, including drywall, wood, metal, and masonry.

EMBRACING THE ARTISTRY OF ROLL, BRUSH, AND SPRAY PAINTING. TRANSFORMING SPACES WITH EVERY STROKE.

Stainless **Steel**

M&M specialises in on-site work, taking on an array of stainless-steel projects, from handrails and handles to stainless sinks and lift doors. With M&M, you can trust that the end quality will match your expectations, transforming the challenges of replacements into seamless solutions that save you time and effort.

WE EMBRACE FINE DETAILS AS THE FOUNDATION OF
EXCELLENCE, DRIVING US TO ACHIEVE THE HIGHEST QUALITY.

FLAWLESS FINISHES

GLASS RECTIFICATIONS

At M&M, we take pride in our specialisation in restoring glass that has been marred by water stains and scratches. Each restoration process is a unique journey, tailored to the specific damage at hand. With our advanced techniques and innovative repair procedures, we skillfully eliminate hard water stains and scratches, preserving the beauty and integrity of your glass. Our unwavering commitment is to save you time and money, all while revitalizing your glass to its former glory.

Silicone Services

We offer a wide range of comprehensive services for the installation, inspection, and repair of silicone joints, ensuring that all our work meets the highest standards of quality and durability. Our highly skilled team has extensive experience in managing both small and large expansion joints, employing advanced techniques and top-grade materials to ensure optimal performance.

Our expertise is showcased through our significant contributions to key projects throughout Sydney, where precision and quality are paramount. Notable projects include the Western Sydney Airport, where silicone joints play a crucial role around glass balustrades; One Sydney Harbour, which required meticulous attention to aesthetic detail; One Circular Quay, where functionality meets design; and the Sydney Metro stations, where our silicone applications enhance both the visual appeal and operational efficiency.

We are dedicated to delivering reliable and effective solutions that cater to the unique requirements of each project. Our collaborative approach ensures that we understand the specific needs and challenges of our clients, allowing us to provide tailored solutions that enhance the longevity and performance of silicone joints in various applications.

Joinery Rectifications

FRENCH POLISHING

Transform and elevate your joinery with our expertise in restoring all types of damage.
